Looking for science inspiration? Don't have time to spare. This one-day course is for you!

This course is for Primary School Teachers and Secondary teachers working alongside a primary teacher colleague in a Community of Learning.

Hui Aspiration: To share ways to teach science so that students can use scientific knowledge and skills to make informed decisions about the communication, application, and implications of science as these relate to their own lives and cultures and to the sustainability of the environment.

Featuring: Hands-On Workshops • Meet and Greet • Resource PopUps
