

'Exploring Learning Through Play'

Use an inquiry approach to plan your next steps on your learning through play journey.
Great for whole teams.

This course aims for you to:

- Discover how to plan in different ways for learning through play.
- Hear from experts about integrating literacy, numeracy and science in your learning through play programme.
- Bring another suitcase, and fill it with loose parts when we visit Creative Junk. Create provocations to take back with you ready to use for Term 4.
- Learn about assessment methods.
- Have a group of experienced play based educators to reflect, share and 'chew the cud' with about your learners.
- Think about the teacher's role in a learning through play environment.

You will be inspired, excited and motivated! "
